

Aryan Ubale

Information Technology Undergraduate

Mumbai, Maharashtra, India | +91 9022767450 | aryanubale318@gmail.com | aryanubale.portfolio | AryanUbale7 | Aryan Ubale

Education

Shree L.R. Tiwari College Of Engineering

Bachelor of Engineering (Information Technology)
CGPA(FY): 7.03

Mumbai, IN

Aug 2024 - May 2028

Vasantrao Naik Jr. College

XII (HSC) - 66.00%

Buldhana, IN

Mar-2022 - Apr 2023

MINOR: Computer Science · Highest Honors · COURSES: Data Structures, Advanced Algorithms, NLP, Systems Programming

Chh. Shahu Maharaj Vidyalaya

X (SSC) - 82.00%

Buldhana, IN

Mar 2020 - May 2021

Technical Skills

Languages

C++, Python, HTML5, CSS3, Javascript

Tools / Libraries

Node.js, React.js, RESTful API, Git, Github

Core CS Concept

Data Structure & Algorithm, DBMS, Operating system

DB / Cloud

MongoDB, PostgreSQL, Netlify, Firebase

Experience

Pixperfect Solution LLP

Mem Stack Developer

Gujarat, India

Sept 2025 - oct 2025

- Developed and optimized scalable backend services and REST APIs using Node.js and Express.js.
- Integrated calendar and Mailgun APIs, improving automation and reducing manual tasks by 30%.

Vaayu Robotics

3D Web Developer Intern

Bhopal, India

Nov 2025 - Dec 2025

- Designed and developed the complete full-stack website for Vaayu Robotics from scratch.
- Built responsive and interactive UI using React.js and implemented backend APIs using Node.js and Express.js.
- Designed MongoDB database schemas and integrated REST APIs for dynamic content management.
- Deployed and maintained the application, ensuring performance, security, and scalability.

Bootcoding Pvt Ltd

Software Developer Intern

Nagpur, India

Nov 2025 - Dec 2025

- Developed and maintained responsive frontend components using React.js and TypeScript.
- Converted UI/UX designs into clean, reusable React components with proper state management.
- Integrated frontend with REST APIs and handled data rendering and form validations.
- Collaborated with backend developers to improve UI performance and user experience.

Projects

React-Node-FastAPI Pipeline (Full Stack Integration Project)

[Github](#) / [Demo](#)

Tech Stack: React.js, Node.js, FastAPI (Python), REST APIs, JavaScript, HTML, CSS, Git, GitHub

- Built an end-to-end full-stack pipeline where React handles the UI, Node.js acts as the middleware/API gateway, and FastAPI processes backend logic such as file/image handling and data processing.
- Implemented seamless communication between frontend and backend microservices, improving system modularity and reducing integration complexity by 40%.

VerityAI - AI-Powered Verification Platform

[Github](#)/[Demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, JavaScript, HTML, CSS, REST APIs

- Designed and developed VerityAI, a full-stack web application focused on AI-based verification and analysis.
- Built a responsive and interactive frontend using React.js with clean UI/UX.
- Implemented backend services and REST APIs using Node.js and Express.js.
- Integrated database operations using MongoDB for storing and managing application data.
- Deployed the frontend on Netlify and ensured smooth performance and scalability.

Real-Time Road Hazard Detection & Alert System (YOLOv8)

[Github](#)/[Demo](#)

Tech Stack : YOLOv8n (Architecture), PyTorch (Backend), Ultralytics (Framework), Python, OpenCV, YAML

- Engineered Real-Time Object Detection System: Developed a Computer Vision (CV) pipeline using YOLOv8n to classify critical hazards from dashcam footage, leveraging Transfer Learning for low-latency performance.
- Resolved Data Pipeline Failures: Successfully implemented custom extraction and splitting logic to bypass severe OpenCV codec and PyQt5 dependencies, achieving robust 80/20 train/validation data organization for model reproducibility.

Certifications and Achivements

Generative AI Hackathon

Sept -2025

Bengaluru Top 50 Finalist

- Designed a Generative AI prototype focusing on intelligent data solutions using modern ML frameworks. Sept - 2025
- Collaborated with developers to refine product presentation and technical feasibility.

Gen AI Exchange Hackathon 2025 - Certificate of Participation

Jan – 2026

Generative AI for Youth Mental Wellness

- Participated in Gen AI Exchange Hackathon 2025 by Google Cloud.
- Built and submitted a Generative AI prototype focused on Youth Mental Wellness.

SuperHack 2025 - Global AI Hackathon

oct-2025

Organizer: SuperOps | Powered by AWS & Hack2Skill

Role: Participant

Year: 2025

- Participated in a global AI hackathon focused on Agentic AI for IT Management
- Contributed to ideation and development of AI-driven solutions for real-world IT challenges
- Gained exposure to cloud-native architectures, AI agents, and problem-solving under time constraints

Build and Grow AI Hackathon 2.0

jan -2026

Organizer: GDG Cloud Mumbai

Team: Trident AI

Role: Team Member

Year: 2025

- Actively participated in an AI-focused hackathon organized by Google Developer Group (GDG) Cloud Mumbai
- Collaborated in a team environment to design and build AI-based solutions
- Demonstrated strong creativity, innovation, and problem-solving mindset
